Zinchenko, A. Z. & Davis, R. H. A boundary-integral study of a drop squeezing through interparticle constrictions, 227–266

X. Li & K. Sarkar	Drop deformation and breakup in a vortex at finite inertia	1
D. P. Wall & M. Nagata	Nonlinear secondary flow through a rotating channel	25
A. Surana, O. Grunberg & G. Haller	Exact theory of three-dimensional flow separation. Part 1. Steady separation	57
B. D. Edmonstone, R. V. Craster & O. K. Matar	Surfactant-induced fingering phenomena beyond the critical micelle concentration	105
M. R. Flynn & C. P. Caulfield	Natural ventilation in interconnected chambers	139
D. Lyubimov, T. Lyubimova, A. Vorobev, A. Mojtabi & B. Zappoli	Thermal vibrational convection in near-critical fluids. Part 1. Non-uniform heating	159
D. Lyubimov, T. Lyubimova, A. Vorobev, A. Mojtabi & B. Zappoli	Thermal vibrational convection in near-critical fluids. Part 2. Weakly non-uniform heating	185
S. K. Venayagamoorthy & D. D. Stretch	Lagrangian mixing in decaying stably stratified turbulence	197
A. Z. Zinchenko & R. H. Davis	A boundary-integral study of a drop squeezing through interparticle constrictions	227
M. A. Shockling, J. J. Allen & A. J. Smits	Roughness effects in turbulent pipe flow	267
M.-H. Chang, F. Chen & B. Straughan	Instability of Poiseuille flow in a fluid overlying a porous layer	287
M. M. Scase & S. B. Dalziel	Internal wave fields generated by a translating body in a stratified fluid: an experimental comparison	305
T. Qian, X.-P. Wang & P. Sheng	A variational approach to moving contact line hydrodynamics	333
W. Hwang & J. K. Eaton	Homogeneous and isotropic turbulence modulation by small heavy ($St \sim 50$) particles	361
X. Xu & G. M. Homsy	The settling velocity and shape distortion of drops in a uniform electric field	395
A. González, A. Ramos, H. Morgan, N. G. Green & A. Castellanos	Electrothermal flows generated by alternating and rotating electric fields in microsystems	415
U. Riemenschneider & V. A. Sheremet	Ball release experiments on a centrifuge: misalignment between the buoyancy force and the axis of rotation	435
T. Ishida, P. A. Davidson & Y. Kaneda	On the decay of isotropic turbulence	455
